KNOWLEDGE FESTIVAL – Concept and artistic direction of the festival

Zeranta signs the artistic direction of the Knowledge Festival, a festival co-designed with the University of Udine.

In July 2015 and July 2016, the city of Udine experienced an opportunity to reflect on the issue of knowledge.

A regular event, a festive square fair in which to take part in interactive conferences, debates, artistic installations.

There are three narrative and exploration themes of the festival. Desire: how to ignite the curiosity of knowledge.
